For Pelatro Limited

Lakshmy Mohanan
Company Secretary and Compliance Officer

Pelatro Limited Reports Strong FY26 Performance; Revenue up 61%, EBITDA up 76%

Bangalore, May 06, 2026: Pelatro Limited (NSE - SME: PELATRO), a global technology company serving the telecom industry through its proprietary customer engagement platform mViva, today announced its financial results for the year ended March 31, 2026 (FY26).

Key Financial Highlights (Consolidated)

(In ₹ Cr, Margin In %)

Particular	Q4 FY26	Q4 FY25	YoY Change
Revenue From Operation	39.10	24.63	↑ 59%
EBITDA	9.10	4.97	↑ 83%
EBITDA Margin (%)	23.26%	20.17%	↑ 309 BPS
PAT	6.11	3.69	↑ 66%
PAT Margin (%)	15.62%	14.98%	↑ 64 BPS

Management Perspective & Outlook

Commenting on the Q4 & FY26 performance, **Mr. Subash Menon, Managing Director & Chairman**, said: “We have delivered a strong performance in both Q4 and FY26, with strong revenue growth and margin expansion. In Q4, EBITDA margin improved to **23.26%**, reflecting operating leverage in the business. Q4 capped the year on a high note, supported by continued demand for our AI-driven customer engagement and monetization platforms.

Our performance is supported by a scalable platform-led model, growing recurring revenues, and an expanded product portfolio through the Estel division, enabling end-to-end telecom solutions and stronger long-term customer relationships.

The Board has recommended a final dividend of **Re. 1 per equity share** for FY26, reflecting our continued focus on delivering value to shareholders.

As we continue to enhance our product capabilities and expand our global presence, we remain confident of sustained, profitable growth while delivering long-term value for our stakeholders.

About Pelatro Limited

Pelatro Limited is a global technology company serving the telecom industry through its proprietary customer engagement platform *mViva*. The platform leverages large-scale data analytics and AI to enable enterprises to understand customer behavior, drive targeted engagement, and improve monetization.

Investor Presentation FY25-26

Company Overview

About Company

Pelatro Limited is a global technology company serving the telecom industry through its proprietary customer engagement platform, **mViva**. The platform leverages large-scale data analytics and intelligence to enable enterprises to understand customer behaviour, drive targeted engagement, and improve monetisation.

mViva processes data for nearly one and a half billion subscribers across **35 countries**, offering an end-to-end solution spanning analytics, audience segmentation, campaign orchestration, execution, and performance reporting. Its user-friendly, marketer-led design supports personalised, lifecycle-based customer journeys using GenAI, Agentic AI and related patented technologies.

In **FY 2025-26**, Pelatro expanded its business portfolio through the acquisition of **Estel Technologies' Software business**, adding solutions such as **eTopUp, Sales & Distribution, Voucher Management, and Mobile Money**. **These offerings operate as Estel Division** establishing a second core growth vertical for the Company. In March 2026, Pelatro also launched **mViva Revenue Acceleration Platform™** with Agentic AI, to transform subscriber engagement for Telcos.

Business Overview

FY26 Result Highlights (Consolidated)

All Figures in Rs. Crores & Margin in %
* FY26 Net Profit has been impacted by an exceptional item related to the new labour code

All Amounts in Rs. Crores

Estel Division profitability is yet to increase to the level of CVM Division – expected in 12 to 18 months.

Key Financial Ratios (Consolidated)

Key Areas of Impact

Product Features

Essential to deploy advanced AI capabilities in the product to ensure that our platforms are at the leading edge of technology.

Software Development

Critical to leverage tools like LLM to improve quality and reduce cost.

Product Features

Launched mViva Revenue Acceleration Platform™ covering:

- ⚙️ AI Agents
- ⚙️ Co-Pilot
- ⚙️ Zero Touch Campaigning™ – Fully automated, LLM based end-to-end campaigning orchestration

Full power of Generative AI and Agentic AI have been captured in the platform.

Impact on business: Continued product leadership due to the offering becoming highly AI based leading to higher growth.

Software Development

Initiatives to improve quality and reduce cost:

- 🤖 LLM leverage in coding
- 🤖 LLM-based development of models
- 🤖 AI-based deployment console in implementation function
- 🤖 Automating support for auto correction

Impact on business:

Lower cost per dollar of revenue leading to higher profitability – will be visible in 18 to 24 months.

Improved quality leading to better reputation which will translate into higher growth.

Revenue Acceleration Platform™

"A platform conceptualised and designed for marketers by experts with decades of industry and domain experience employing AI/ML"

Contextual Campaign Management

Launch and manage the entire campaign lifecycle for both customers and retailers.

Contextual Loyalty Management

Deliver loyalty programs to reward and retain customers.

Customer Data Platform

A data powerhouse to enable Customer 360° view for data-driven decision making.

Data Monetization Solution

Easily extend campaign management services to enterprise customers and monetize customer data.

Unified Communication Solution

A highly scalable and reliable solution for all your A2P/P2A communication needs.

Managed Services (Eco-system enablement)

Comprehensive business consulting, business operations and IT operation support with a dedicated and skilled workforce.

Products and Services Overview

"Specialized payment solutions, prepaid recharge and distribution to achieve digital transformation within telcos"

eRecharge and Voucher Management Solution

Launch and manage the entire campaign lifecycle for both customers and retailers.

Sales & Distribution Management Solution

Manages distribution and sales of physical and virtual products within the partner and customer ecosystem.

Mobile Money Platform

Complete with extensive analytics. End-to-end facilitation of mobile money transactions.

Managed Services (Eco-system enablement)

Comprehensive business consulting, business operations and IT operations support with a dedicated and skilled workforce.

Data as of December 31st each year

What this means

Pelatro is a leader in market penetration with respect to products in both CVM and Estel Divisions

Pelatro has 8 products and the average presence per customer is 1.3 products – significant growth opportunities to sell more products to existing customers resulting in higher revenue per customer

Increasing market penetration will lead to larger base to cross sell our products and services

Proprietary, End-to-End Telecom Technology Platforms

Proprietary platforms spanning customer engagement, analytics, campaigning, recharge, distribution, voucher management and mobile money, addressing multiple layers of the telecom value chain.

In-House Technology, Testing & Scalable Infrastructure

In-house product development and automation testing capabilities, supported by scalable infrastructure, enabling reliable performance and seamless integration at high transaction volumes.

Deep Domain Expertise Across Telecom Ecosystem

Strong understanding of telecom operations, enabling customized solutions, differentiated execution, and trusted business consulting, operations and managed services.

High-Volume Transaction Capabilities

Platforms designed to process large-scale, real-time transactions across prepaid, postpaid, recharge, voucher, distribution and mobile financial services environments.

Complementary Product Portfolio Enhancing Monetization

Integration of Pelatro's engagement and intelligence platforms with Estel Division's monetization and distribution solutions, creating a broader, unified offering for telecom operators.

Highly Referenceable Global Customer Base with Entry Barriers

Deployed across 46 telecom networks globally (as of 31 December 2025), with long-standing customer relationships and high switching and implementation barriers.

Asset-Light, Profitable and Scalable Business Model

Proprietary, AI/ML-driven platforms with operating leverage, network effects, and a highly capable workforce supporting scalable growth.

Patented and Differentiated Technology Stack

Multiple registered patents addressing real-time data processing challenges in high-volume 4G/5G telecom environments.

Soaring with AI

Products and processes have been re-engineered making them AI driven thereby leveraging Agentic AI both externally and internally.

Visibility and Predictability

Deep and mission critical engagements with telcos for a broad spectrum of products and services ensuring high visibility and predictability – 82% of FY27 revenue has been contracted.

Market Penetration

Penetrated 10% of telcos – layering growth through more products and services leading to higher revenue per customer. Stepping up penetration steadily.

High-Barrier Target Market

Focus on telecom with long sales cycles, complex integrations and regulatory intensity limiting new entrants.

Strong and Profitable Growth

Increasing market penetration, recurring revenue and higher revenue per customer delivering compounding growth in the foreseeable future – annual revenue growth of about 15% over the next 5 years, with expanding EBITDA.
